Dear Mr. Lewis:

Per our telephone conversation today, please discontinue further processing of our Part A application permit. As we discussed, we at Tyson Bearing Company have been delisted by Kentucky EPA officials as a generator of hazardous waste. This was accomplished by testing of our waste products in accordance to Federal EPA criteria.

Our EPA ID # and address is as follows:

KYD 001737683
Tyson Bearing Co.
Division of SKF Industries
Happy Valley Road
Glasgow, KY 42141

Please contact me if further assistance is required in this matter.

Re: EPA ID No. KYD001737683
SKF Industries, Tyson Bearings Co.

Dear Mr. Browning:

This letter is to acknowledge receipt of your June 3, 1981, letter requesting withdrawal of the Part A application for the Glasgow facility.

In response to this request, the application has been withdrawn from the active permits file and added to the facility notification file. The notification record has been amended to delete generator and treatment, storage, or disposal activity, and now shows the facility as a non-handler of hazardous waste.

If you have any questions please contact Ms. Rita Ford at 404/881-2328.

Sincerely yours,

T. Michael Taimi, Chief
